I love playing this on the Bass.

My friend loves playing this on the guitar. I think he does rythem guitar.. Not sure why the Survivor - Eye of the Tiger doesn't work on the mac like all the other DLC. I think it is incorrectly marked on steam or something.. I challenge anyone to play this one without a huge smile on thier face. For anyone who likes cheesy 80s music, this song is an essential purchase. Great for beginners too.
